

SCTE 2014 - 19th International Conference on Solid Compounds of Transition Elements
21-26 JUNE 2014, GENOVA - ITALY

Abstract Submission has been extended for the 19th International Conference on Solid Compounds of Transition Elements.

Following many requests we have received, we have decided to postpone the abstract submission deadline.

The new deadline for orals and posters alike is Friday, February 28th 2014, at midnight (local time).

Applications for bursaries is extended to the same deadline.

Abstracts must be submitted to: <mailto:abstracts@scte2014.it> , following the instructions contained in the *Abstract Submission* page of the conference website: www.scte2014.it

The “19th International Conference on Solid Compounds of Transition Elements” will be held at the **Palazzo della Nuova Borsa, Genova, Italy**, from **21 to 26 June 2014**.

The conference will deal with the structure, crystal chemistry, chemical bonding and magnetic and electronic transport properties of different classes of intermetallic compounds. Hydrides, borides, carbides, silicides and homologues, pnictides, as well as chalcogenides, oxides and halides (especially those of low oxidation state exhibiting metal or semimetal properties) will also be covered. A particular emphasis will be given to the International Year of Crystallography devoting to the structural complexity of the transition metal compounds one day conference.

All days invited Plenary sessions and Keynote lectures, oral and poster presentations will be held.

Main topics addresses include:

- processes and syntheses;
- crystal chemistry;
- phase equilibria;
- thermodynamics;
- magnetic and electrical properties;
- theory, electronic structure, chemical bonding;
- applications.

We would appreciate if you could promote our conference to your colleagues who might be interested in coming to Genova and contributing to the meeting.

We are looking forward to welcoming you in Genova next year.
